

Wind in our sails

What has helped us move forward?
What has been successful so far?
What has excited or motivated us?

Beacons on the horizon

What milestones can we work toward?
What goals do we have?
What can we get excited about?

[Topic of the retrospective]

Anchors holding us back

What is dragging us down?
What has kept us from making progress?
When did we fail or flounder?

Barriers we see ahead

What will we need to navigate around?
Where might we get stuck?
What problems might get worse?
